+ New Project

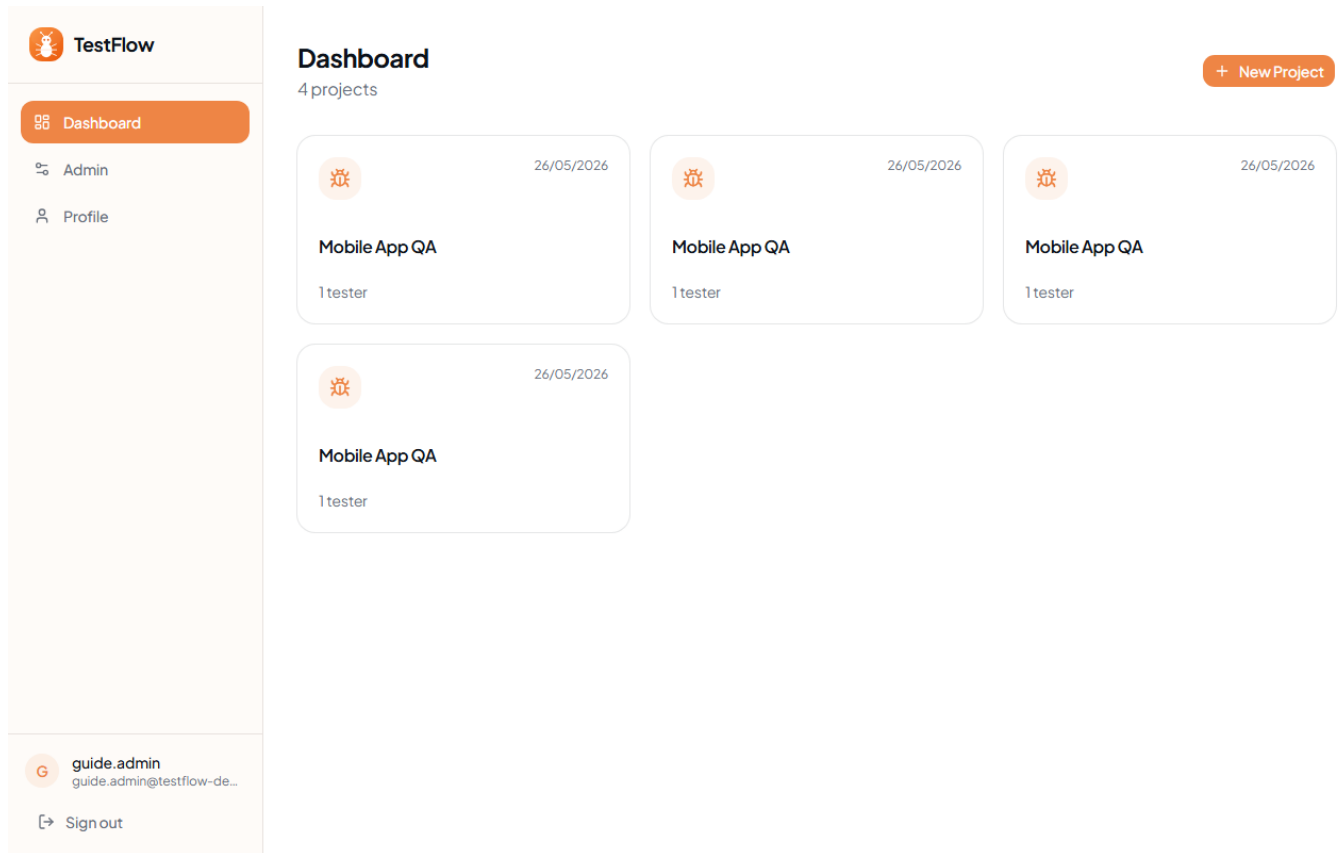

Enter a project name (e.g. 'Mobile App QA') and click 'Create Project'.

Type a descriptive project name, then click Create Project to confirm.

The new project card appears. Click it to open the project and start managing bugs.

The screenshot displays the TestFlow dashboard interface. On the left is a sidebar with the TestFlow logo and navigation links for 'Dashboard', 'Admin', and 'Profile'. The main content area is titled 'Dashboard' and shows '4 projects'. A '+ New Project' button is in the top right. Four project cards are visible, each for 'Mobile App QA' with a date of '26/05/2026' and '1 tester'. The bottom of the sidebar shows the user 'guide.admin' with a 'Sign out' link.

|-----------------------|----------|------|-------------|--------|
| No bugs reported yet. |          |      |             |        |

Overall Report 0/5

No report files yet.

Enter the tester's email address and click 'Send Invite'. They will receive login credentials via email automatically.

The screenshot displays the TestFlow application interface. On the left is a sidebar with the TestFlow logo and navigation links: Dashboard, Admin, and Profile. The main content area is titled 'Mobile App QA' and shows '0 bugs'. A table with columns 'Bug Title', 'Reporter', 'Date', 'Attachments', and 'Status' is present, but it is empty with the message 'No bugs reported yet.' Below the table is an 'Overall Report' section showing '0/5' reports. An 'Invite Tester' dialog box is open in the center, featuring a text input field for 'Tester's email' containing 'tester@example.com', a confirmation message 'An invite email with login credentials will be sent automatically.', and two buttons: 'Cancel' and 'Send Invite'. The bottom of the sidebar shows the user 'guide.admin' with a 'Sign out' link.

Once the email is entered, click Send Invite. The tester is added to the project immediately.

A confirmation screen confirms the invite. The tester now has access to this project.

Click 'Add Row' to log a bug. Enter a title, detailed description, and attach screenshots if available.

The screenshot displays the TestFlow application interface. On the left is a sidebar with the TestFlow logo and navigation links: Dashboard, Admin, and Profile. The main content area is titled 'Mobile App QA' and shows '0 bugs'. A red notification banner states 'This tester is already a member of this project.' Below this, a 'Report New Bug' dialog is open. The dialog has a close button (X) and an '+ Add Row' button. It contains a table with columns: Bug Title, Reporter, Date, Attachments, and Status. The 'Bug Title' field is highlighted. Below the table is a 'Description' field with a placeholder text: 'Steps to reproduce, expected vs actual behavior'. To the right of the description field, it says 'No bugs reported yet.' Below the description field is a 'Screenshots' section with a label '(max 6, images only)' and a counter '0/5'. There is a dashed box for uploading screenshots with the text 'Click to upload screenshots' and a red notification banner 'This tester is already a member of this project.' Below the screenshots section, it says 'No report files yet.' At the bottom of the dialog are 'Cancel' and 'Submit Bug' buttons. The sidebar at the bottom shows the user 'guide.admin' with the email 'guide.admin@testflow-de...' and a 'Sign out' button.

Clicking a row opens the Bug Detail dialog. It shows the full description, screenshots, and current status.

The screenshot displays the TestFlow application interface. On the left is a sidebar with the TestFlow logo and navigation links: Dashboard, Admin, and Profile. The main content area is titled 'Mobile App QA' and shows a list of bugs. The first bug is 'Sign-In button unresponsive on iOS17' by reporter 'ale37d4a...' on '26/05/2026, 19:46'. Below the list is an 'Overall Report' section for the selected bug, showing a score of '0/5', reported and updated dates of '26/05/2026', and a description: 'The Sign In button does not respond on iPhone 14 and Chrome mobile). Desktop browsers work fine.' It also includes 'Steps to reproduce' with three numbered steps. The bottom of the screen shows the user 'guide.admin' with a 'Sign out' button.

Click the pencil icon on any row to edit the title, description, or status of an existing bug.

The screenshot displays the TestFlow application interface. On the left is a sidebar with the TestFlow logo and navigation links: Dashboard, Admin, and Profile. The main content area is titled 'Mobile App QA' and shows a list of bugs. One bug is selected, and an 'Edit Bug' dialog is open. The dialog contains the following fields:

- Title:** Sign-In button unresponsive on iOS 17
- Description:** The Sign In button does not respond on iPhone 14 (iOS 17.2, Safari and Chrome mobile). Desktop browsers work fine. No report files yet.
- Steps to reproduce:** (empty text area)
- Status:** Fixed (selected from a dropdown menu)

At the bottom of the dialog are 'Cancel' and 'Save Changes' buttons. The background shows a table of bugs with columns: Bug Title, Reporter, Date, Attachments, and Status. The bug being edited is 'Sign-In button unresponsive on iOS 17' by reporter 'a1e37d4a...' on '26/05/2026, 19:46', with status 'Fixed'.

The Admin panel lists all your projects. Click a project row to expand it and see its testers.
